

MAINTAINANCE PRODUCT

1L

PROPERTIES

• This product is designed for use in wood floors, cork floor tiles, marble, ceramic, concrete and other types of surfaces and materials.

• This polish - very easy to use - fills in scratches, rejuvenates dull spots, sealing old worn floors to a clear matt finish and protects floors against stains and spills. After complete drying, the resultant film of this product has the following properties:

- uniform low gloss retention
- resistance to scuffs and scratches
- resistance to water and usual detergents
- will not yellow or discolour

Varying film thickness and localized temperature or moisture may result in areas that differ in gloss or sheen.

APPLICATION

- The surface to be coated must be dry and free from grease and dust particles.
- Prior to application turn the package upside down and shake the product thoroughly until a homogeneous liquid is obtained and allow to rest for five minutes
- Use a soft cotton duster/cloth and apply the polish using circular movements to rub well in.
- If haze or cloudiness occurs the polish must be completely removed from the floor with a common stripper and reapplied.

STORAGE

This product should not be stored more than one year, preferably in their original packs, at temperatures between 5 °C and 35 °C.

WATERBASED FLOOR MATTE POLISH

DL-9667

- S2 Keep out of reach of children.
- S24/25 Avoid contact with skin and eyes.
